

How to Share Step Wisely Animated Videos with Employees

The animated videos available to MCIT member entities as part of the Step Wisely slip, trip and fall prevention program can be shared with employees in two ways.

Option 1: Stream Videos on Intranet Site

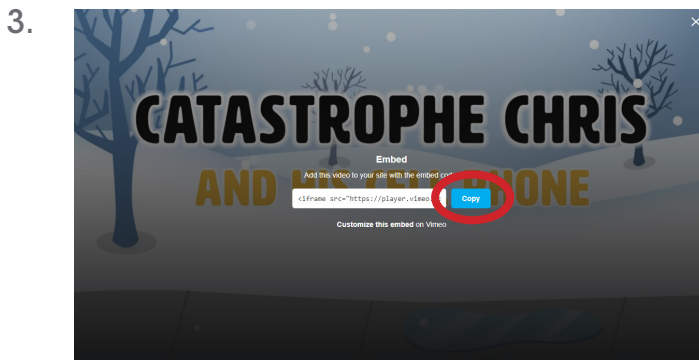

Work with your intranet manager to place the embed code for the animated videos.

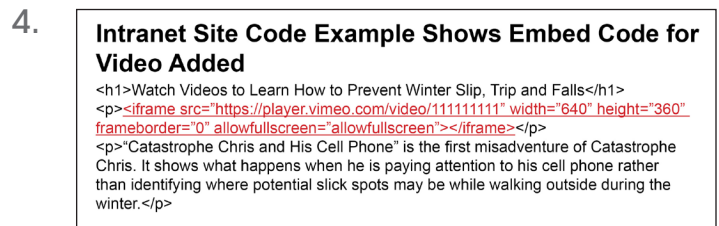

- Go to [MCIT.org/step-wisely/winter-slip-trip-and-fall-prevention/animated-videos](https://www.mcit.org/step-wisely/winter-slip-trip-and-fall-prevention/animated-videos)
- You must log in to the site to access this page.

- Locate the video you want to add to the intranet
- Click on the paper airplane icon in the upper right corner.

- Click the blue "Copy" box.

- Paste the embed code into the code of the intranet page where you want the video to appear.
- The embed code looks something like this:
`<iframe src="https://player.vimeo.com/video/111111111" width="640" height="360" frameborder="0" allowfullscreen="allowfullscreen"></iframe>`

Option 2: Provide Hyperlink to Video

1. Follow steps 1 through 3 above for capturing the embed code.

- 2.
- Paste the embed code into a text file.
 - Delete the struck text shown in the code example below:
~~`<iframe src="https://player.vimeo.com/video/111111111" width="640" height="360" frameborder="0" allowfullscreen="allowfullscreen"></iframe>`~~
 - The remaining text is the URL (link) for viewing the video online.
Suggestion: Hyperlink a screen shot image of the video's title screen to increase the visual appeal.

The Step Wisely program is created by Minnesota Counties Intergovernmental Trust and provided to its member entities at no cost at [MCIT.org](https://www.mcit.org).
