This booklet is a summary of the 2026 MCIT Coverage Document, and it is meant for general information purposes only. It is not intended to provide legal or coverage advice on a specific situation. Please refer to the 2026 MCIT Coverage Document for a complete list of coverage terms, conditions, limitations and exclusions. All claims are subject to the provisions of the MCIT Coverage Document.

One of the advantages of participating in a risk-sharing pool is the ability to share the cost of coverage for similar exposures to loss with other members or to spread the risk across all members. Exclusions are generally applied when:

- The exposure to loss is limited to just one member or a few members, thereby mitigating the spread of risk.
- Providing coverage is not beneficial to all members.
- Cost of coverage is prohibitive.
- The exposure has the potential to affect reinsurance adversely.
- Providing coverage is against public policy.
- The assets of MCIT would be at risk.

Exclusions are necessary and should be viewed as a way to protect the assets of MCIT and to maintain member equity.
